## Before You Start

- ⚠ Please read all instructions carefully.
- ⚠ Retain instructions for future reference.
- ⚠ Separate and count all parts and hardware.
- ⚠ Read through each step carefully and follow the proper order.
- ⚠ We recommend that, where possible, all items are assembled near to the area in which they will be placed in use, to avoid moving the product unnecessarily once assembled.
- ⚠ Always place the product on a flat, steady and stable surface.
- ⚠ Keep all small parts and packaging materials for this product away from babies and children as they potentially pose a serious choking hazard.

Pls read below instructions carefully before use:

The thickness of our air track has an effect on how it can be used. The pressure in the air track needs to be high enough to prevent you from hitting the floor and soft enough for a comfortable bounce. Pls check the air pressure of the equipment before each training session.

### Warning:

This equipment is not a toy. It is a training equipment for gymnastics, cheerleading, tumbling, show groups, martial arts and tricking.

- Do not allow more than one person at a time to use the equipment.
- Do not wear shoes while on our equipment for they may damage the surface.
- Do not jump or land closer than 20 cm to a valve.
- Assure basic skills are achieved before attempting more advanced skills.
- Do not bring any sharp items on or close to the equipment.
- Never place equipment near overhead obstructions, such as low ceilings, trees or power lines, nor place the equipment on a slope greater than 5%.
- The area on which the equipment is placed must be clean, dry, flat and free of obstacles and walls.
- Do not expose equipment to heat, including heat from exposure to the sun.
- Never leave equipment outside unattended
- The equipment is not a flotation device.
- Never pack, store or transport the equipment when it is moist or dirty.
- Equipment may move during use which could result in serious injury.
- All users of this equipment assume this risk of serious injury.
- Mats cannot and do not eliminate hazards.
